Lesson 11 Quiz. The following quiz is provided for your information to help you measure your retention level on the material covered within this lesson. It is not graded. Only the final examination is graded. Answer or complete each question to the best of your knowledge and click on the "Check your answer" button.

Lesson 11 Quiz

Answer Explanation: When we subtract x to get all the x's together, we get 5 = 8. There's no real value of x that will make that true, so the answer is (D). The other three answers will give incorrect equations (8 = 11, 10 = 13, and 13 = 16), so we can be sure they aren't right.

The default answer for a question with all blank answers is "continue". The order of the answers will appear to be random to the students. In other words, two students looking at the same question, will see the answers in a different order. Unlike a Quiz, there is no Lesson setting to turn off the "shuffle". The teacher should not skip an answer.
