How to Renovate a House | Real Estate | US News

The largest sub-project within the larger bathroom remodeling project is to install the shower or bathtub or shower-tub combination. The contractor's subcontractors do this job, not the plumber. If a prefabricated shower or tub is being installed, installation is usually complete within a couple of days.

The Ultimate Bathroom Remodeling Guide

The words "renovate" and "remodel" are often used interchangeably when it comes to real estate, contracting, and interior design. However, for professionals working in one or more of these industries, these terms actually entail two very different things. Essentially, the difference between them is that a renovation refers to restoring something to a previous state, while a remodel refers to creating something new.

A comprehensive guide to getting the best results while building or renovating a home operates on the belief that homeowners can't know what goes into a plan unless someone tells them, which is based on the premise ... if homeowners knew even 10% of what the professionals know, they could avoid 90% of the problems. Original.

Presents detailed information on every step of kitchen and bath renovations, including floor plan ideas, storage strategies, decorating styles, product advice, and buying tips.

How easily can you imagine a guidebook that will prepare you for what is about to occur during your home remodeling project? Well that's exactly what has been done for you in "CUT THE CHAOS - The Ultimate Guide to Residential Remodeling." From preliminary design to construction documents, Tim shares with you many of his experiences over 35 years of designing homes. From permit processing to final inspection, he shares some stories of success, and failure, on home remodeling projects that he has designed. He outlines specific actions for you to take, and some actions NOT to take, in order to stay in control of your home remodeling project. You will learn how he thinks, how he gets his vision for a design, and how he takes that vision into your project. You will learn how he creates a reality, that up to this point in time, you've only imagined in your mind. When you think of remodeling your home, all sorts of images may appear in your mind. You undoubtedly know of friends and neighbors who have done remodeling projects, and you've heard their war stories too. Architects that cost too much, a draftsman that didn't know enough, contractors who were unlicensed or uninsured, or who started, then disappeared with the money half way through the project! All of these things can happen, they have happened, and unfortunately, they will continue to happen. Tim's goal in writing "CUT THE CHOAS" is to make sure that none of these things ever happen to you... the unsuspecting homeowner. Together we will explore such topics as "Interior Design," "Aging in Place," and the ever present question "Where Do I Start?." You will learn about the value of having a valid building permit, and the scope of work that can be undertaken, legally, without a permit. You will learn about the Foundation, Plumbing, Electrical, and Framing. You'll learn about Painting, Flooring, Cabinets, and all the contractors you'll need to perform that work. Ultimately you'll learn a whole lot about you, and the work you're about to accomplish. You'll be astonished when Tim describes some of the circumstances that you will eventually face during your home remodeling project. You are going to make decisions that you never imagined you could make. You're going to dream, yes dream, of what your life could look like.

Tells how to avoid some of the pitfalls of remodeling and offers advice on dealing with architects, contractors, builders, laborers, and inspectors.

Covers plumbing, electricity, heating and ventilation, lighting, floors, counters, storage, and kitchen equipment
