Mike Anderson, Realtor / COMPASS is a real estate agency in La Mesa, CA, helping people find their dream home. Whether you're interested in buying your first home or selling your current one, he's able to help you make the most of your next real estate venture.

When Mimi first started jogging on a treadmill as an unfit 36-year-old mother-of-three, she never imagined she would go on to become a World-Record-breaking ultrarunner. After coming to terms with the anorexia, Mimi begins to reassess her relationship with food and finds a new resolve in running. With a renewed sense of purpose, she decides to take the sport that saved her life to the next level, by entering the epic Marathon De Sables in the Sahara desert, despite still being a novice runner. One startling success leads to another, as she finds herself taking on ever-more-challenging races - from the Badwater Ultramarathon in Death Valley, USA, to the 6633 Extreme Ultramarathon in the Arctic- all building up to her biggest challenge yet, attempting to gain the Guinness World Record for the fastest time by a female running 840 miles from John O'Groats to Land's End. This incredible story of how an ordinary mum ran her way into the record books will inspire beginner runners and die-hard marathon devotees alike, proving that no matter where life takes you it's never too late to achieve your dreams and do the impossible.

What really motivates students to learn? What gets them interested—and keeps them interested—in pursuing knowledge and understanding? Recent neuroscientific findings have uncovered the source of our motivation to learn, or as neuroscientist Jaak Panksepp terms it, the drive to seek. Seeking is what gets us out of bed in the morning, the engine that powers our actions, and the need that manifests as curiosity. Informed by new findings on the nature of the brain ' s seeking system, internationally renowned educators Gayle Gregory and Martha Kaufeldt have identified key brain-friendly strategies for improving students motivation, knowledge acquisition, retention, and academic success. In this book, readers will learn " The science behind the motivated brain and how it relates to student learning. " Strategies for preparing a motivational environment and lesson. " Strategies for creating engaging learning experiences that capitalize on the brain ' s natural ways of learning. " Strategies for improving depth of knowledge, complex thinking, and synthesis to get students into the ever-desired state of flow. " How attention to the neuroscience of motivation will improve the classroom environment and student learning. The Motivated Brain shows teachers how to harness the power of their students ' intrinsic motivation to make learning fun, engaging, and meaningful.

With its barbecues, new Cadillacs, and \$4,000 snakeskin cowboy boots, Texas is all about power and money -- and the power that money buys. This detailed and wide-scope account shows how a group of wealthy Texas Republicans quietly hijacked American politics for their own gain. Getting George W. Bush elected, we learn, was just the tip of the iceberg... In Follow the Money, award-winning journalist and sixth-generation Texan John Anderson shows how power in Texas has long been vested in the interconnected worlds of Houston's global energy companies, banks, and law firms -- not least among them Baker Botts, the firm controlled by none other than James A. Baker III, the Bush family consigliere. Anderson explains how the Texas political system came to be controlled by a sophisticated, well-funded group of conservative Republicans who, after elevating George W. Bush to the American presidency, went about applying their hardball, high-dollar politicking to Washington, D.C. When George Bush reached the White House, he brought with him not only members of the Texas legal establishment (among them former White House counsel Harriet Miers and Attorney General Alberto Gonzales) but empowered swarms of Republican lobbyists who saw in Bush's arrival a way to make both common cause and big money. Another important Beltway Texan was Congressman Tom DeLay, the famous "Exterminator" of Houston's Twenty-second District, who became majority leader in 2003 and controlled which bills made it through Congress and which did not. DeLay, in turn, was linked to lobbyist Jack Abramoff, who used his relationships with both DeLay and Karl Rove on behalf of his clients, creating a shockingly corrupt flow of millions of dollars among Republican lobby groups and political action committees. Washington soon became infected by Texas-style politics. Influence-peddling, deal-making, and money-laundering followed -- much of it accomplished in the capital's toniest restaurants or on the fairways and beaches of luxurious resorts, away from the public eye. The

damaging fallout has, one way or another, touched nearly all Americans, Democrat and Republican alike. Follow the Money reveals the hidden web of influence that links George W. Bush, Dick Cheney, and the Texas Republicans to the 2000 recount in Florida, the national tort-reform movement; the controversial late-hour, one-vote passage of the Medicare Reform Act, congressional redistricting schemes, scandals in the energy sector; the destruction of basic constitutional protections; the financial machinery of the Christian right; the manipulation of American-Indian tribe casinos; the Iraq War torture scandals; the crooked management of the Department of the Interior; the composition of the Supreme Court; and the 2007 purges of seasoned prosecutors in the Justice Department. Some of the actors are in federal prison, others are on their way there, and many more have successfully eluded a day of reckoning. Told with verve, style, and a not-so-occasional raised eyebrow, Anderson's account arcs directly into tomorrow's headlines. Startling in its revelations, Follow the Money is sure to spark controversy and much-needed debate concerning which direction this country goes next.
