Richard George Lipsey, OC FRSC is a Canadian academic and economist. He is best known for his work on the economics of the second-best, a theory that demonstrated that piecemeal establishing of individual first best conditions would not necessarily raise welfare in a situation in which all first best conditions could not be satisfied, an article that he co-authored with Kelvin Lancaster, a mathematical economist of high standing. He is currently Professor Emeritus of Economics at Simon Fraser Un

This work maintains the approach of the US text, Principles of Economics by Case and Fair, but with the main focus on Europe. This is reflected in the use of the open economy approach, the use of the Euro as the standard currency, as well as providing numerous European examples and applications. Maths Boxes enable the lecturer to decide on the amount of calculus they wish to include. End-of-chapter problems with selected answers at the end of the book allow students to assess their progress.

Richard Lipsey and Alec Chrystal have rewritten their global bestseller to take account of the latest international developments, whilst revising their core material to ensure students have the best possible grounding in economics.

A Crash Course in the Study of Production and Consumption! Too often, textbooks turn the noteworthy details of economics into tedious discourse that would put even Joseph Stiglitz to sleep. Economics 101 cuts out the boring explanations, and instead provides a hands-on lesson that keeps you engaged as you explore how societies allocate their resources for maximum benefit. From quantitative easing to marginal utility, this primer is packed with hundreds of entertaining tidbits and concepts that you won't be able to get anywhere else. So whether you're looking to master the major principles of finance, or just want to learn more about why money matters, Economics 101 has all the answers--even the ones you didn't know you were looking for.
