Forget everything you were taught, forget everything you heard, just forget everything you thought you knew about love. What you are about to hear will change your heart forever. What if we found someone that was true to love and characterized the nature of pure love itself? Then you would have Angel, and oh how she would save, restore, heal and guide one's heart to that perfect nature once again. This will test the knight's beliefs, love and allegiance to his queen. The angel will reestablish the principles of love, restore its hierarchy and carry its very flag. The knight's beliefs will be turned upside down with a new, angelic gospel. Behold! In truth, the knight is about to be set free. In faith, he is about to grow wings. In love, he is about to soar and you are invited to go with him. If you follow the angel's gospel, you also, will never be in want of the spiritual fruits again - ever. Let Angel tell it, where they are and how to gain an eternal supply and never see the lack of love again, no matter who you think may be holding its supply. In the end you will share love's entire storehouse and enjoy its eternal victory. Don't settle for just winning a heart, but in love, conquer. Visit thelovescrolls.com for more.

By twenty-four, Carter Stevenson has stuttered and ticced his way to debilitating shyness. Although his friends accuse him of letting his Tourette's dictate his life, Carter moves from Los Angeles to a quiet California town. He'll keep his head down and avoid people. He doesn't anticipate his new neighbor, Ethan Hart, crashing into his solitude and forcing him to get out and live. From the beginning, Ethan makes his love for Carter clear. But he fears Carter won't see past Ethan's damaged brain, even though it makes Ethan more attuned to his emotions than most people. For Carter, there's a bigger issue: he's been burned by so-called "perfect" matches, and he won't risk his heart again. One way or another, Ethan's determined to show Carter they belong together. Then Ethan receives tragic news. Suddenly he must turn to Carter for strength and support. Will Carter come through when Ethan needs him most?

Were-witches. These hybrid creatures stalk the earth with the raw, primal power of the werewolf and the cunning, dark magic of the witch. They're deadly hunters with the capability for both bloodthirsty vengeance and an unwavering loyalty to their own. Gabrielle Gayle is an ambitious chef in one of New Haven's trendiest restaurants. Her concerns consist of getting ahead in her career, dodging barbed insults from her sharp-tongued mother, and dealing with the nagging certainty that she has always had powers. However, when the Clan of were-witches seeks revenge for her mother murdering one of their own, she and her sister are brutally attacked. With nowhere else to go, she turns to Nick, a Hunter of witches, werewolves, demons, and any combination thereof. However, Gabrielle learns that she has much more in common with the Clan than she ever imagined. And, in order to save herself and her family from being destroyed, she must embrace her powers and become the very creature she fears the most.

William III (1689-1702) & Mary II (1689-94) (Britain's only ever 'joint monarchs') changed the course of the entire country's history, coming to power through a coup (which involved Mary betraying her own father), reestablishing parliament on a new footing and, through committing Britain to fighting France, initiating an immensely long period of warfare and colonial expansion. Jonathan Keates' wonderful book makes both monarchs vivid, the cold, shrewd 'Dutch' William and the shortlived Mary, whose life and death inspired Purcell to write some of his greatest music.

Award-winning essayist Tom Bissell explores the highs and lows of the creative process. He takes us from the set of The Big Bang Theory to the first novel of Ernest Hemingway to the final work of David Foster Wallace; from the films of Werner Herzog to the film of Tommy Wiseau to the editorial meeting in which Paula Fox's work was relaunched into the world. Originally published in magazines such as The Believer, The New Yorker, and Harper's, these essays represent ten years of Bissell's best writing on every aspect of creation—be it Iraq War documentaries or video-game character voices—and will provoke as much thought as they do laughter. What are sitcoms for exactly? Can art be both bad and genius? Why do some books survive and others vanish? Bissell's exploration of these questions make for gripping, unforgettable reading.

This guide fuses the wisdom of the East and West, and explores how ancient Asian battle strategies and cultural mindsets can be applied today to achieve mental toughness and winning business techniques.
