This carefully designed workbook helps students master legal citation through a series of exercises coordinated with Understanding and Mastering The Bluebook. Starting at beginner level, the workbook introduces students to basic citation forms, then builds on this foundation through a step-by-step series of targeted exercises that both reinforce the basics and introduce new rules. Each exercise presents a caption from an authority and all the necessary information to prepare a full or short form citation. The workbook concentrates on the citations used most in the classroom and in practice. Workbook exercises are grouped to correspond with chapters in Understanding and

Mastering The Bluebook, with one or more sets of exercises of ten questions each. The more complex citation forms, such as cases and statutes, are divided into multiple ten-question sets, each targeting a specific subset of rules. A review exercise is provided for cases and statutes which can be used as additional practice or as a quiz. The workbook is planned to give students the practice they need to master citation, while easing the burden on teachers to create exercises and provide detailed feedback. Space is provided in the workbook for students to write the citations, with the pages perforated for easy tear out.

innovative approach that enables students to master the Bluebook citation rules needed in legal research and writing courses and in legal practice. It combines detailed, yet easy-to-understand, explanations and examples of Bluebook rules with different types of exercises, which are also available online. The exercises begin with multiple choice questions that assist students' mastery of discrete rules, followed by short answer questions that allow students to practice implementing the rules by drafting individual citations. Finally, a comprehensive exercise puts citations in the context of a legal document and requires students to make the necessary corrections. The available

Media Flight Plan was developed in response to the need for affordable media planning simulations in the university classroom. Professional level media planning software ranges in price from hundreds to thousands of dollars. Media Flight Plan, including both the textbook and the online simulation, sells at or below the average price of a used textbook. MFP provides university students' access to not only realistic simulations of planning software, but also includes access to professional

syndicated data like MRI, SRDS, Nielsen data, (all by permission) and other syndicated sources that only large corporations and agencies can afford. Besides the online software simulation, the text includes eight chapters that cover basics like basic math models involved in media buying/planning, and exercises that cover calculation of audience ratings, media share, reach and frequency, and gross rating points. Case studies are included for actual Fortune 500 clients. All cases require students to interpret and apply professional syndicated data and employ the basic methods for writing marketing driven media plans. Both authors, Dennis Martin and Dale Coons, have professional ad

agency experience. Coons is executive vice president in a major agency where he directs research, media planning and client development. He is among the most sought-after experts in the field of advertising research. Martin worked on national brands as a copywriter and creative director and co-authored *Strategic Advertising Campaigns*, a national best-seller for Advertising Age's publishing division. Earning his Ph.D. at University of Illinois, he achieved national and international recognition as a professor of marketing communications.

the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).
