The Life and Times of Birsa Munda The year: 1890-92. It was a time of turmoil when several Adivasis in the Chhotanagpur region were falling prey to the false preaching of the Christian churches and were forced to embrace Christianity. It was a ploy by the British to convert Adivasis into Christianity in an attempt to stem protests. Birsa Munda and his family also believed in the preaching initially and converted to Christianity. Soon, however, Birsa saw through the trickery and not merely did he convert to Hinduism again, he also convinced several Adivasis who had converted to Christianity to embrace Hinduism once again. It was this Birsa Munda who later became 'God' of the Adivasis and came to be regarded as 'Dharti-Aba' or 'Father of the Universe.' The British administration was jolted and in an attempt to nab Birsa announced a reward of Rs 500 for his arrest. The British trick worked and some greedy informers of the British captured Birsa when he was sleeping at night. This book, a biography of the great Adivasi leader, Birsa Munda, tries to capture some of the brave glimpses from the life of a daring revolutionary who gave up all he had to fight for the rights of his people and to ensure the freedom of his motherland.

India's top Bollywood biographer tells the uncensored story of Sanjay's roller-coaster life Ð from the tragic deaths of both his mother and his first wife to the time he smuggled heroin into the US and from the painful rehab he had to go through to his curious phone calls to gangster Chhota Shakeel.

Sarah J. Maas's sexy, richly imagined series continues with the journey of Feyre's fiery sister, Nesta. Nesta Archeron has always been prickly-proud, swift to anger, and slow to forgive. And ever since being forced into the Cauldron and becoming High Fae against her will, she's struggled to find a place for herself within the strange, deadly world she inhabits. Worse, she can't seem to move past the horrors of the war with Hybern and all she lost in it. The one person who ignites her temper more than any other is Cassian, the battle-scarred warrior whose position in Rhysand and Feyre's Night Court keeps him constantly in Nesta's orbit. But her temper isn't the only thing Cassian ignites. The fire between them is undeniable, and only burns hotter as they are forced into close quarters with each other. Meanwhile, the treacherous human queens who returned to the Continent during the last war have forged a dangerous new alliance, threatening the fragile peace that has settled over the realms. And the key to halting them might very well rely on Cassian and Nesta facing their haunting pasts. Against the sweeping backdrop of a world seared by war and plagued with uncertainty, Nesta and Cassian battle monsters from within and without as they

Over the last few decades, research, activity, and funding has been devoted to improving the recruitment, retention, and advancement of women in the fields of science, engineering, and medicine. In recent years the diversity of those participating in these fields, particularly the participation of women, has improved and there are significantly more women entering careers and studying science, engineering, and medicine than ever before. However, as women increasingly enter these fields they face biases and barriers and it is not surprising that sexual harassment is one of these barriers. Over thirty years the incidence of sexual harassment in different industries has held steady, yet now more women are in the workforce and in academia, and in the fields of science, engineering, and medicine (as students and faculty) and so more women are experiencing sexual harassment as they work and learn. Over the last several years, revelations of the sexual harassment experienced by women in the workplace and in academic settings have raised urgent questions about the specific impact of this discriminatory behavior on women and the extent to which it is limiting their careers. Sexual Harassment of Women explores the influence of sexual harassment in academia on the career advancement of women in the scientific, technical, and medical workforce. This report reviews the research on the extent to which women in the fields of science, engineering, and medicine are victimized by sexual harassment and examines the existing information on the extent to which sexual harassment in academia negatively impacts the recruitment, retention, and advancement of women pursuing scientific, engineering, technical, and medical careers. It also identifies and analyzes the policies, strategies and practices that have been the most successful in preventing and addressing sexual harassment in these settings.

This is a movie tie-in edition and any reviews posted before October 10, 2019 are from the previous edition of the same title published in 2015. Aisha Chaudhary was born with SCID (severe combined immune deficiency) and underwent a bone-marrow transplant when she was six months old. She lived in New Delhi, where she was born. The year 2014 was brutal for Aisha as her disease progressed, and her lungs started giving up on her. The last few months of the year felt like a roller-coaster ride, one that seemed to be mostly going down. Spending almost all her time lying in bed, Aisha wrote down her thoughts to get some relief, to get them out of her head. Aisha's life was not anything like the average life of an urban teenager, but she had experienced a lifetime of emotions; life and death, fear and anger, love and hate, the depths of utter sorrow and the happiest one can be. In My Little Epiphanies she took a hard look at her own feelings and what it was that gave her a sense of hope and control. This book gave her life purpose and meaning, something to hold on to. Sometimes, Aisha's little epiphanies had morphed into doodles that capture what was going on in her mind as her destiny played itself out. Through the book she wanted the world to understand her unusual life and she hoped that it will inspire others, going through similar hardships, to find peace.

Hi, I'm Keshav, and my life is screwed. I hate my job and my girlfriend left me. Ah, the beautiful Zara. Zara is from Kashmir. She is a Muslim. And did I tell you my family is a bit, well, traditional? Anyway, leave that. Zara and I broke up four years ago. She moved on in life. I didn't. I drank every night to forget her. The inspiring story of one of India's greatest wrestling coaches. In 2000, after the Olympic Games closed with much fanfare in Sydney, legendary wrestler Mahavir Singh Phogat watched, dejected, as the prize reserved by his state government for the winner of an Olympic gold medal went unclaimed. Determined to never see this instance repeated, Phogat decided to do the unthinkable. Much to his neighbours' curiosity, he spent two days digging a pit in his courtyard and asked his young daughters and nieces to join him there at the break of dawn one day. Little did they know that this unusual command from their father would change their lives forever. Yet, each of their wins in the ring, every ambition he had for them, came at great personal cost. In the small village of Balali in Haryana, a state infamous for its practice of female foeticide and low literacy rates, Phogat had to battle not just deep social stigma and an apathetic government but also a disapproving family and personal tragedy to train the girls in his sport. Akhada tells the remarkable story of a man of tremendous fortitude, of a father who fought against all odds to give his daughters a future they could not have dreamed for themselves.
