This book is for Java EE application developers who have a Seam web application set up and ready to go, and are looking for information on the key areas of Seam that this book covers. You will need a basic understanding of Java EE and also to be aware of EJB3, although you do not need to know it in any detail. Experience with JBoss AS would be great, but all you really need is to be comfortable using any application server. Knowledge of AJAX and JavaScript would also be beneficial, although it is not necessary.

Teacher's score - Petr Eben has encouraged and approved these arrangements for two-guitars, pupil and teacher. The student always plays the original melody which is often repeated in a different register allowing for the playing of complete melodic phrases with the thumb. A feature of these arrangements is the early and frequent use of the second and third positions, and to a lesser extent, positions four to five; this is done for essentially musical reasons and teachers are advised to follow the suggested left hand fingering. Right hand fingerings are given to show whether a phrase should begin with the index or middle finger or the thumb.
