Options trading have become an appealing option for many investors today, particularly as trading volume continues to rise and investors have decided to try new types of investments. If you want to make the most of this type of investment and are interested in trying options in lieu of or in addition to other types of investments, you'll benefit from gaining a full understanding of options and how they work.

In The Bible of Options Strategies, Second Edition, legendary options trader Guy Cohen systematically presents today's most effective strategies for trading options: how and why they work, when they're appropriate and inappropriate, and how to use each one responsibly and with confidence. Updated throughout, this edition contains new chapters assessing the current options landscape, discussing margin collateral issues, and introducing Cohen's exceptionally valuable OVI indicators. The Bible of Options Strategies, Second Edition is practical from start to finish: modular, easy to navigate, and thoroughly cross-referenced, so you can find what you need fast, and act before your opportunity disappears. Cohen systematically covers every key area of options strategy: income strategies, volatility strategies, sideways market strategies, leveraged strategies, and synthetic strategies. Even the most complex techniques are explained with unsurpassed clarity - making them accessible to any trader with even modest options experience. More than an incredible value, this is the definitive reference to contemporary options trading: the one book you need by your side whenever you trade. For all options traders with at least some experience.

Would you like to know the best way to significantly increase your income by working from anywhere with your computer? If the answer is 'YES', then keep reading...
