Raising a gifted child is both a joy and a challenge, yet parents of gifted children have few resources for reliable parenting information. The four authors, who have decades of professional experience with gifted children and their families, provide practical guidance in areas such as: Characteristics of gifted children, Peer relations, Sibling issues, Motivation and underachievement, Discipline Issues, Intensity, perfectionism, and stress, Idealism, unhappiness, and depression, Educational planning, Parenting concerns, Finding professional help. Book jacket.

Explains how parents can improve their child's brain power through day-to-day interactions and offers an overview of each stage of a baby's brain development.

Dr. Rimm provides practical, compassionate, no-nonsense advice for raising happy, secure, and productive children, from preschool to college. Easy-to-follow parent pointers, sample dialogues, and boxed step-by-step examples show parents how to: select appropriate rewards and punishments, decrease arguments and power struggles, encourage appropriate independence without overempowering your children, guide your children toward good study habits, encourage creativity in your children, set limits for children, and much more.

This manual provides the essential information for persons wishing to conduct SENG Model parent support groups for parents of gifted children. Each week, parents in the group read a chapter of A Parent's Guide to Gifted Children, and then discuss the concepts in the chapter, led by the group facilitator. Parents support one another in practicing new techniques at home. Who should receive SENG training? Persons with some knowledge of gifted children who want to facilitate parent groups in an encouraging, non-confrontational style. This might include: coordinators of gifted programs; teachers; counselors; experienced parents; social workers; and/or psychologists.

Our brightest, most creative children and adults are often being misdiagnosed with behavioral and emotional disorders such as ADHD, Oppositional-Defiant Disorder, Bipolar, OCD, or Asperger's. Many receive unneeded medication and inappropriate counseling as a result. Physicians, psychologists, and counselors are unaware of characteristics of gifted children and adults that mimic pathological diagnoses. Six nationally prominent health care professionals describe ways parents and professionals can distinguish between gifted behaviors and pathological behaviors. These authors have brought to light a widespread and serious problem: the wasting of lives from the misdiagnosis of gifted children and adults and the inappropriate treatment that often follows. Jack G. Wiggins, Ph. D., Former President, American Psychological Association
