After her nightmarish recovery from a serious car accident, Faye gets horrible news from her doctor, and it hits her hard like a rock: she can't bear children. In extreme shock, she breaks off her engagement, leaves her job and confines herself in her family home. One day, she meets her brother's best friend , and her soul makes a first step to healing.

"Microsoft's last Windows version, the April 2018 Update, is a glorious Santa sack full of new features and refinements. What's still not included, though, is a single page of printed instructions. Fortunately, David Pogue is back to help you make sense of it all—with humor, authority, and 500 illustrations."--Page 4 of cover.

Part of the ICE manuals series, ICE manual of structural design is the essential reference for all structural engineers involved in the design of buildings and other structures. The manual takes a project oriented approach, covering key issues that design professionals face at the outset of a project such as sustainability, risk management and how to understand the client's needs, before going on to cover the core issues of concept design and the detailed design of structural components.

We revisit Lipset's law, which posits a positive and significant relationship between income and democracy. Using dynamic and heterogeneous panel data estimation techniques, we find a significant and negative relationship between income and democracy: higher/lower incomes per capita hinder/trigger democratization. Decomposing overall income per capita into its resource and non-resource components, we find that the coefficient on the latter is positive and significant while that on the former is significant but negative, indicating that the role of resource income is central to the result.

Is nature all there is? John Haught examines this question and in doing so addresses a fundamental issue in the dialogue of science with religion. The belief that nature is all there is and that no overall purpose exists in the universe is known broadly as 'naturalism'. Naturalism, in this context, denies the existence of any realities distinct from the natural world and human culture. Since the rise of science in the modern world has had so much influence on naturalism's intellectual acceptance, the author focuses on 'scientific' naturalism and the way in which its defenders are now attempting to put a distance between contemporary thought and humanity's religious traditions. Haught seeks to provide a reasonable, scientifically informed alternative to naturalism. His approach will provide the basis for lively discussion among students, scholars, scientists, theologians and intellectually curious people in general.

The Collected Works of Witness Lee, 1959, volume 3, contains messages given by Brother Witness Lee in September through December 1959. Historical information concerning Brother Lee's travels and the content of his ministry in 1959 can be found in the general preface that appears at the beginning of volume 1 in this set. The contents of this volume are divided into four sections, as follows: 1. Personal notes consisting of two sets of outlines for gospel meetings held in Taipei and Kaohsiung, Taiwan, in September and November 1959. These notes are included in this volume under the title Witness Lee's Personal Notes. 2. Twenty-five messages given in Taipei, Taiwan, in the fall of 1959. These messages were previously published in a book entitled Lessons for New Believers and are included in this volume under the same title. 3. Five messages given in Taipei, Taiwan, in the first part of a training that began on October 5, 1959, and concluded on January 22, 1960. Chapters 1, 2, 4, and 5 were previously published in a book entitled On Knowing the Bible. Chapter 3 was added based on notes taken by Brother K. H. Weigh and his wife, Lin Yi-tian. The messages that compose the first four chapters were given on October 6 through 9, 1959, and the fifth message was probably given shortly thereafter. The five messages are included in this volume under the same title as the previously published book. 4. Ten messages given in Taipei, Taiwan, in the second part of a training that began on October 5, 1959, and concluded on January 22, 1960. These messages were previously published in a book entitled Ten Lines in the Bible. Later, two appendices were added based on notes taken by Brother K. H. Weigh and his wife, Lin Yi-tian. The exact dates for the speaking of these messages are unknown, but they were given in the winter of 1959. The ten messages and the two appendices are included in this volume under the same title as the previously published book.
