A book about reactions, relationships, life, and how they can all change literally in one split second. The way the truth is revealed gradually made me want to keep on reading "just one more chapter" each time I picked up the book. Descriptively and compassionately written, I found it easy to read, whilst being thought provoking.

Split Second is a book about time travel... but not really. What if you couldn't go back to the age of the dinosaurs, or even watch your birth. But, you could only go back a fraction of a fraction of a second. Literally less than a blink of an eye.

Split Second picks up just days after where Pivot Point left off, and for that reason alone, I'd recommend re-reading just the last few chapters of Pivot Point to ease into this book. That's what I did, and it helped me get my head back into this world of Norms and ParaNorms.

One Split Second is the kind of novel that pulls you in and offers an opportunity to view a tragedy from multiple perspectives. It's not an easy novel to read, and as a parent of three teenagers, two of which are in the age range of the characters within this book, it was at times quite harrowing.

Kasie West delivers nail-biting suspense and heart-pounding romance in the thrilling sequel to Pivot Point. Addie has always been able to see the future when faced with a choice, but that doesn't make her present any easier. Her boyfriend used her. Her best friend betrayed her. So when Addie's dad invites her to spend her winter break with him in the Norm world, she jumps at the chance. There she meets the handsome and achingly familiar Trevor. He's a virtual stranger to her, so why does her heart do a funny flip every time she sees him? But after witnessing secrets that were supposed to stay hidden, Trevor quickly seems more suspicious of Addie than interested in her. She wants to change that. Laila, her best friend, has a secret of her own: she can restore Addie's memories... once she learns how. But there are powerful people who don't want this to happen. Desperate, Laila tries to manipulate Connor, a brooding bad boy from school—but he seems to be the only boy in the Compound immune to her charms. And the only one who can help her.

#1 New York Times bestselling author Catherine Couler returns with another pulse-pounding thriller featuring FBI agents Dillon Savich and Lacey Sherlock... A serial killer is on the loose, and it's up to FBI agents Dillon Savich and Lacey Sherlock to bring him down. They soon discover that the killer has blood ties to an infamous and now long-dead monster. Savich and Sherlock are joined by agents Lucy Carlyle and Cooper McKnight, and the chase is on. At the same time, Agent Carlyle learns from her dying father that her grandfather didn't simply walk away from his family twenty-two years ago: he was, in fact, murdered by his wife, Lucy's grandmother. Determined to find the truth, Lucy moves into her grandmother's Chevy Chase mansion. What she finds, however, is a nightmare. Not only does she discover the truth of what happened all those years ago, but she faces a new mystery, one that has been passed down from mother to daughter for generations. As the hunt for the serial killer escalates, Savich realizes he's become the killer's focus, and perhaps the next victim. It's up to Lucy to stop this madness before it's too late.

An "entertaining" look at the psychology and neuroscience behind the act of influencing others (Kirkus Reviews). People try to persuade us every day. From the news to the Internet to coworkers and family, everyone and everything wants to influence our thoughts in some way. And in turn, we hope to persuade others. Understanding the dynamics of persuasion can help us to achieve our own goals—and resist being manipulated by those who don't necessarily have our best interests at heart. Psychologist Kevin Dutton has identified a powerful strain of immediate, instinctual persuasion, a method of influence that allows people to disarm skepticism, win arguments, and close deals. With a combination of astute methods and in-depth research in the fields of psychology and neuroscience, Dutton's fascinating and provocative book: Introduces the natural super-persuaders in our midst: Buddhist monks, magicians, advertisers, con men, hostage negotiators, and even psychopaths. Reveals which hidden pathways in the brain lead us to believe something even when we know it's not true. Explains how group dynamics can make us more tolerant or deepen our extremism. Illuminates the five elements of SPICE (simplicity, perceived self-interest, incongruity, confidence, and empathy) for instantly effective persuasion. "[Split-Second Persuasion] offers some powerful insights into the art and science of getting people to do what you want." —New Scientist
