'Statistics for Business and Economics' prepares business students to think critically about reported data and to use appropriate statistical methods to make accurate and reasoned decisions.

"This twelfth edition of Statistics for Business and Economics is an introductory text emphasizing inference, with extensive coverage of data collection and analysis as needed to evaluate the reported results of statistical studies and make good decisions. As in earlier editions, the text stresses the development of statistical thinking, the assessment of credibility, and the value of the inferences made from data, both by those who consume and those who produce them. It assumes a
