His teaching and research focuses on strategy with its implications for human performance and corporate social responsibility. An award-winning author and teacher, he has published more than 100 professional articles and a number of books including Third Sector Management (Georgetown University Press, 2001) and Human Resources and Personnel Management, Fifth Edition (McGraw-Hill, 1996).

Blending theory with practical application, this comprehensive text supports courses at the intersection of corporate social responsibility (CSR), corporate strategy, and public policy. Part I provides an overview of the field, defining CSR and placing it in the context of wider corporate strategy. Part II contains chapters on CSR issues related to the organization, the economy, and society, and provides detailed case studies on a variety of well-known firms. Adopting a stakeholder perspective, the authors explore CSR issues within the complex global business environment in which corporations operate today.

Blending theory with practical application, Strategic Corporate Social Responsibility, Third Edition is a comprehensive CSR and strategy text. As such, it supports courses taught either as standalone electives or as core components of the business school curriculum across all discipline areas. Integral to the book's unique format is its mix of theory and practical application divided into two parts. After five chapters that provide an overview of the field, core concepts, and practical challenges, the second half of the book illustrates the extensive and dynamic nature of CSR via 21 detailed issues and case-studies. The cases capture contentious debates across the spectrum of CSR topics that culminate with a series of questions designed to stimulate further investigation and debate.

Strategic Corporate Social Responsibility: Sustainable Value Creation redefines corporate social responsibility (CSR) as being central to the value-creating purpose of the firm. Based on a theory of empowered stakeholders, this bestselling text argues that the [responsibility] of a corporation is to create value, broadly defined. In this new Fourth Edition, author David Chandler explores why some firms are better at CSR and how other firms can improve their CSR efforts. Keep your course content up-to-date! Subscribe to David Chandler's 'CSR Newsletters' by e-mailing him at david.chandler@ucdenver.edu. The newsletters are designed to be a dynamic complement to the text that can be used for in-class discussion and debate. Past newsletters are archived as a freely-available resource for instructors and students at: <http://strategiccsr-sage.blogspot.com/>

Strategic Corporate Social Responsibility, Fifth Edition is a comprehensive CSR text with a strong emphasis on strategy. Balancing theory and practical applications, the text is divided into two parts. The first half of the text provides an overview of the field, stakeholders perspective, CSR as a strategic filter, and how to implement CSR effectively. The second half of the book uses more than 20 cases to illustrate the organizational, economic, and societal issues surrounding CSR. The engaging cases capture contentious debates across the spectrum of CSR topics that culminate with a series of questions designed to stimulate further investigation and debate.

Strategic Corporate Social Responsibility: Stakeholders in a Global Environment provides faculty and students with a comprehensive, stand-alone text to support traditional and innovative courses in corporate social responsibility (CSR). Integral to the book's unique format is the real-life "mini-case-study" approach across the spectrum of CSR topics, backed by Internet accessible references. Adopting a stakeholder approach to CSR, the content and format of this sourcebook defines CSR within the global communications environment in which multinational corporations operate today.

Based on the idea that strategic CSR offers the most holistic and effective approach to corporate social responsibility, the author presents the key concepts, theories and philosophical approaches to CSR, along with the practical tools needed to implement this knowledge in the real world.

The chapters in this volume cover a wide range of theoretical perspectives grounded in strategy, economics and sociology, employ various methodological approaches, and offer new arguments on the connections that exist between firms' decisions relating to sustainability, CSR, and the governance of their stakeholder relations.

Can good-will be good business? Firms are increasingly called upon to address matters such as poverty and human rights violations. The demand for corporate social responsibility (CSR) is directed mainly at top management in multinational corporations who are reminded that, in addition to helping to make the world a better place, their commitment to social action will be rewarded by lasting customer loyalty and profits. But is it true that firms that engage in social action will be rewarded with a good name, competitive advantage, superior profits and corporate sustainability? What if it is true for some firms and not for others? This book addresses these and other questions by explaining the how and why of creating value and competitive advantage through corporate social action. It shows how and when firms can develop successful corporate social strategies that establish strong commitments to shareholders, employees and other stakeholders.

To fully comprehend corporate social responsibility (CSR), corporations must understand the many-sided nature of CSR. This book provides insight into the theoretical foundation, beliefs, and expectations of the multiple stakeholders; the governance of CSR commitment; and corporations' strategies associated with the design, development, implementation and communication strategies for CSR through the case study on Malaysia. The book also explains why corporations should pursue a dual economic and social function and why it being critical to an organisation's success. It also describes the CSR trends and influences such as sustainability and globalisation on the future of CSR.

Shows how companies can maximize the value of their CR initiatives by fostering strong stakeholder relationships.
