Using documented research and personal testimony, the author asserts that evidence of life on other planets and of visits to earth by alien spacecraft has been suppressed by various governments around the world

A sequel to " Above Top Secret " which alleged a worldwide cover-up of UFO sightings. The main theme of this book is the threat of extra-terrestrial beings to the Earth.

Jim Marrs can justifiably be considered the world 's leading conspiracy author, with multimillion bestsellers like Alien Agenda, Rule by Secrecy, and the book that Oliver Stone used as a basis for his JFK movie, Crossfire: The Plot That Killed Kennedy. Now Marrs has allied with the web 's most popular conspiracy forum to investigate everything from chemtrails to the Nazis ' Antarctic base, moon landing hoaxes to UFOs, God as an alien to the end of the world in 2012. AboveTopSecret.com is the Internet 's largest and most popular discussion board community, with more than twelve million page views per month. It is dedicated to the intelligent exchange of ideas and debate on a wide range of " alternative topics " such as conspiracies, UFOs, paranormal, secret societies, political scandals, new world order, terrorism, and dozens of related topics. AboveTopSecret 's popular podcast is downloaded tens of millions of times per month. Marrs brings his rigorous journalist 's credentials to bear on these topics and more, asking (and often answering) the essential who, what, when, where, why, and how questions in compelling, page-turning fashion.

Unearthly Disclosure is a story of alien bases, alien contacts and abductions, genetic mutants, animal mutilations, and government paranoia. Here, Timothy Good, one of the world's most respected authorities on the alien phenomenon, reveals for the first time sensational information provided to him by high-level military and scientific sources, who confirm that aliens have established subterranean and submarine bases on Earth and that extra-terrestrial contact has been made with a select group in the US military and scientific intelligence community. Among numerous revelations in this book are those involving the alien creature photographed by Filiberto Caponi in Italy. The author spent several years investigating this controversial case and commissioned an Expert Witness checked by the Law Society to analyse Caponi's astonishing photographs. Published for the first time, this unique story forms the central section of Unearthly Disclosure.

In Above Top Secret, Timothy Good examined evidence of US government research into alien visitations to Earth. In this book he investigates what he describes as top-secret UFO units in Britain, Canada and the USA, in which captured spacecraft are said to be tested and aliens subjected to medical examination. The book includes interviews with RAF and USAF personnel, scientists and doctors, as well as personal stories of alleged alien contact.

A worldwide history of alien contact from one of the most respected authorities on the phenomenon: " A bible for UFO watchers " (The Wall Street Journal). This fascinating new volume tells the story of contact between aliens and humans from all across the globe, dating back to 1932, including meetings with military personnel and American presidents such as Eisenhower and Kennedy. For the first time, a former member of M16 reveals her conversation with Neil Armstrong at a NASA conference, when she confirmed that there were " other " spacecraft on the moon when Apollo 11 landed in 1969. Armstrong also confirmed that the CIA was behind the cover-up. In a further admission in December 2012, Russian Prime Minister Dmitry Medvedev revealed " the president of Russia is given a special top secret folder [that] in its entirety contains information about aliens who have visited our planet. Along with this, the president is given a report of the Special Service that exercises control over aliens in our country. I will not tell you how many of them are among us because it may cause panic. "

UFOs remain essentially a military and intelligence problem - and one demanding unprecedented security and deception, with access to information on a strictly 'need to know' basis. As early as 1960 former CIA director Admiral Hillenkoetter confirmed that, 'Behind the scenes, high-ranking air force officers are soberly concerned about the UFOs. But through official secrecy and ridicule, many citizens are led to believe the unknown flying objects are nonsense.' The same could be said today. Based on many years of research by one of the world's most respected authorities on alien phenomena, Need to Know draws on top-secret documents, reports of encounters with large craft of unknown origin from pilots and personnel aboard aircraft carriers and destroyers and interviews with high-ranking military insiders. It is full of revelations, including the alarming escalation of aircraft accidents and the disappearance of hundreds of military aircraft during UFO encounters and recent near-misses with UFOs. The evidence is clear, balanced - and irrefutable.

Collecting the most recent stories about the UFO phenomenon, a detailed account includes testimony by a former NASA engineer, who claims the government possesses alien vehicles, and other accounts by international scientists. Original.
