A beginner's guide and a bible for one of the greatest social innovations of modern times: the discipline of management. Whether you're new to the field or a seasoned executive, this book will give you a firm grasp on what it takes to make an organization perform. It presents the basic principles of management simply, but not simplistically. Why did an eBay succeed where a Webvan did not? Why do you need both a business model and a strategy? Why is it impossible to manage without the right performance measures, and do yours pass the test? What Management Is is both a beginner's guide and a bible for one of the greatest social innovations of modern times: the discipline of management. Joan Magretta, a former top editor at the Harvard Business Review, distills the wisdom of a bewildering sea of books and articles into one simple, clear volume, explaining both the logic of successful organizations and how that logic is embodied in practice. Magretta makes rich use of examples- contemporary and historical- to bring to life management's High Concepts: value creation, business models, competitive strategy, and organizational design. She devotes equal attention to the often unwritten rules of execution that characterize the best-performing organizations. Throughout she shows how the principles of management that work in for-profit businesses can- and must- be applied to nonprofits as well. Most management books preach a single formula or a single fad. This one roams knowledgeably over the best that has been thought and written with a practical eye for what matters in real organizations. Not since Peter Drucker's great work of the 1950s and 1960s has there been a comparable effort to present the work of management as a coherent whole, to take stock of the current state of play, and to write about it thoughtfully for readers of all backgrounds. Newcomers will find the basics demystified. More experienced readers will recognize a store of useful wisdom and a framework for improving their own performance. This is the big-picture management book for our times. It defines a common standard of managerial literacy that will help all of us lead more productive lives, whether we aspire to be managers or not.

Examines and explains the revolutionary business frameworks of Michael Porter, with examples to illustrate and update Porter's ideas for achieving and sustaining competitive success.

When it comes to strategy, the mistake most managers make is thinking they have one when they don't. Joan Magretta, author of the bestselling book Understanding Michael Porter, has teamed up with illustrator Emile Holmewood to capture essential strategy concepts in a short, easy-to-understand, graphic format. Here you'll find the classic Porter frameworks- industry structure and the Five Forces, competitive advantage and the value chain- as well as a set of practical tests to apply in evaluating existing strategies or developing new ones. You'll also learn Porter's thinking about critical issues such as scale, goal setting, sustainability, and disruption. With a relatable cast of characters- a deadlocked team of managers calls in Professor Porter to help them devise a new strategy- this book brings a sense of fun to a serious subject. It will help you quickly grasp the fundamentals of strategy, whether you're a seasoned strategist looking to cut through all the new buzzwords or a new manager about to lead your first strategy meeting.

This collection highlights the most important ideas and concepts from Michael E. Porter, recognized worldwide as the leading thinker on strategy. Porter heads The Institute for Strategy and Competitiveness based at Harvard Business School and is the foremost authority on competitive strategy for business, as well as on the competitiveness and economic development of nations, states, and regions. Business readers will recognize Porter's seminal book, On Competition, as a classic in the field. This set, curated by Harvard Business Review, includes the full digital edition of the updated and expanded edition of On Competition- a must-have for anyone interested in or studying the topic of strategy and for those developing strategy for their own organizations. The collection also includes the digital edition of the popular Understanding Michael Porter: The Essential Guide to Competition and Strategy, which offers a concise, accessible summary of Porter's revolutionary thinking and was written with Porter's full cooperation by Joan Magretta, his former editor at Harvard Business Review. Finally, the set features the newer foundational article "Creating Shared Value," which was published in Harvard Business Review in 2011 to great fanfare and global accolades. This must-have collection is for anyone serious about business, strategy, and competitiveness.

Rethink how your organization creates, delivers, and captures value-- or risk becoming irrelevant. If you read nothing else on business model innovation, read these 10 articles. For the past two decades, Michael Porter's work has towered over the field of competitive strategy. On Competition, Updated and Expanded Edition brings together more than a dozen of Porter's landmark articles from the Harvard Business Review. Five are new to this edition, including the 2008 update to his classic "The Five Competitive Forces That Shape Strategy," as well as new work on health care, philanthropy, corporate social responsibility, and CEO leadership. This collection captures Porter's unique ability to bridge theory and practice. Each of the articles has not only shaped thinking, but also redefined the work of practitioners in its respective field. In an insightful new introduction, Porter relates each article to the whole of his thinking about competition and value creation, and traces how that thinking has deepened over time. This collection is organized by topic, allowing the reader easy access to the wide range of Porter's work. Parts I and II present the frameworks for which Porter is best known-- frameworks that address how companies, as well as nations and regions, gain and sustain competitive advantage. Part III shows how strategic thinking can address society's most pressing challenges, from environmental sustainability to improving health-care delivery. Part IV explores how both nonprofits and corporations can create value for society more effectively by applying strategy principles to philanthropy. Part V explores the link between strategy and leadership.

Leading Minds and Landmark Ideas In An Easily Accessible Format From the preeminent thinkers whose work has defined an entire field to the rising stars who will redefine the way we think about business, The Harvard Business Review Paperback Series delivers the fundamental information today's professionals need to stay competitive in a fast-moving world. Prominent CEOs share, in their own words, their insights and thoughts on both cutting edge issues and timeless topics. Combined, these eight interviews create perhaps the most extensive and stimulating seminar on the latest business thinking.
