Alistair Taylor worked with the Beatles almost without a break until they split up. He was hired by Brian Epstein to be his assistant and eventually became general manager of Apple.

A Women's History of the Beatles is the first book to offer a detailed presentation of the band's social and cultural impact as understood through the experiences and lives of women. Drawing on a mix of interviews, archival research, textual analysis, and autoethnography, this scholarly work depicts how the Beatles have profoundly shaped and enriched the lives of women, while also reexamining key, influential female figures within the group's history. Organized topically based on key themes important to the Beatles story, each chapter uncovers the varied and multifaceted relationships women have had with the band, whether face-to-face and intimately or parasocially through mediated, popular culture. Set within a socio-historical context that charts changing gender norms since the early 1960s, these narratives consider how the Beatles have affected women's lives across three generations.

Providing a fresh perspective of a well-known tale, this is a cultural history that moves far beyond the screams of Beatlemania to offer a more comprehensive understanding of what the now iconic band has meant to women over the course of six decades.

A treasury of largely unpublished images of the iconic band's historic first trip to the United States features the work of an award-winning photographer who was given unique access to their appearances at Carnegie Hall, in Central Park and on the Ed Sullivan Show.

Yesterday ' s Melodies Today's Memories is a rare collection of profiles of all important music-makers of the Hindi Film Industry between 1931 and 1970. It not only gives a biographical background of each music artiste, but it goes further to interview many of the surviving giants and completes the task by listing some of the best songs with which that person is associated. Here are singers that include the whole gamut from KL Saigal to Asha Bhosle, lyricists that include Sahir and Gulzar, music composers from Naushad to RD Burman, artistes that were part-time singers and full time actors like Ashok Kumar, melody queens like Noor Jahan and Lata Mangeshkar, gentlemen lyricists like Prem Dhawan and gentlemen singers like Manna Dey, mischief-makers like Kishore Kumar and rebels without pause like OP Nayyar and Majrooh Sultanpuri. In fact, this book is a house in which all these great talents live

happily, each in a separate room, given space for self-expression. The serious research that has gone into this book is evident as you move from one chapter to another, opening layers after layers presented non-seriously. Over 100 music makers are presented this way and many more in a huge single chapter.

The field of memory studies has long been preoccupied with the manner in which events from the past are commemorated, forgotten, re-fashioned, or worked through on both the individual and collective level. Yet in an age when various modes of artistic and cultural commemoration have begun to overlap with and respond to one another, the dynamics of cultural remembering and forgetting become bound up in an increasingly elaborate network of representations that operate both within and outside temporal, cultural, and national borders. As publicly circulating texts that straddle the line between cultural artifact and artistic object, both musical and literary works, both individually and often in conjunction with one another, help shape cultural memories and individual experiences of those events. Troping their cultural milieux through specific aesthetic and social forms, genres, and modes of dissemination, music and literature become part of a growing global panoply of raw materials upon which we might begin to pose questions regarding the way we remember, the consequences of sharing and passing on those memories, and the aesthetic and cultural pressures attendant upon the circulation and interpretation of texts that (re-)sound the past.

This book compiles more outrageous opinions and unrehearsed interviews from the former Beatles and the people who surrounded them. Keith Badman unearths a treasury of Beatles

sound bites and points-of-view, taken from the post break up years. Includes insights from Yoko Ono, Linda McCartney, Barbara Bach and many more.

The Beatles est un groupe musical originaire de Liverpool, composé de John Lennon, Paul McCartney, George Harrison et Ringo Starr. Il demeure, en dépit de sa séparation en 1970, l'un des groupes de rock les plus populaires au monde. En dix ans d'existence, et seulement huit ans de carrière discographique (de 1962 à 1970), les Beatles ont enregistré douze albums originaux et ont composé plus de 200 chansons. Une productivité particulièrement remarquable dans la période 1963-1966 où, entre les tournées incessantes et la participation à deux longs métrages, ils ont publié sept albums, treize singles et douze EPs. Considérées comme la « bande-son » des années 1960, les chansons des Beatles ont marqué leur décennie ainsi que les générations suivantes, et leurs mélodies ont été adaptées à de nombreux genres musicaux, notamment le jazz, la salsa, le reggae ou la musique classique et baroque.

Dovetailing nicely with the resurgence in Beatlemania brought on by the Anthology television documentary and archival recordings, this collection of black-and-white images, taken by photographer Robert Freeman, captures John, Paul, George, and Ringo in the early and middle stages of fame: the years 1963 to 1965. 90 photos.

Winner of the 2020 Baillie Gifford Prize for Non-Fiction A distinctive portrait of the Fab Four by one of the sharpest and wittiest writers of our time "If you want to know what it was like to live those extraordinary Beatles years in real time, read this book." —Alan Johnson, *The*

Spectator Though fifty years have passed since the breakup of the Beatles, the fab four continue to occupy an utterly unique place in popular culture. Their influence extends far beyond music and into realms as diverse as fashion and fine art, sexual politics and religion. When they appeared on The Ed Sullivan Show in 1964, fresh off the plane from England, they provoked an epidemic of hoarse-throated fandom that continues to this day. Who better, then, to capture the Beatles phenomenon than Craig Brown—the inimitable author of *Ninety-Nine Glimpses of Princess Margaret* and master chronicler of the foibles and foppishness of British high society? This wide-ranging portrait of the four lads from Liverpool rivals the unique spectacle of the band itself by delving into a vast catalog of heretofore unexamined lore. When actress Eleanor Bron touched down at Heathrow with the Beatles, she thought that a flock of starlings had alighted on the roof of the terminal—only to discover that the birds were in fact young women screaming at the top of their lungs. One journalist, mistaken for Paul McCartney as he trailed the band in his car, found himself nearly crushed to death as fans climbed atop the vehicle and pressed their bodies against the windshield. Or what about the Baptist preacher who claimed that the Beatles synchronized their songs with the rhythm of an infant's heartbeat so as to induce a hypnotic state in listeners? And just how many people have employed the services of a Canadian dentist who bought John Lennon's tooth at auction, extracted its DNA, and now offers paternity tests to those hoping to sue his estate? *150 Glimpses of the Beatles* is, above all, a distinctively kaleidoscopic examination of the Beatles' effect on the world around them and the world they helped bring into being. Part anthropology and part memoir, and enriched by the recollections of everyone from Tom Hanks to Bruce Springsteen, this book is a humorous, elegiac, and at times madcap take on
